Re: Tenor High School Mural

Matt,

Pursuant to our phone conversation on 04-17-2026 and after review of the recommended material of the new mural proposed for the upper south façade of the building, I have absolutely no concerns with long term damage to the masonry.

As discussed, the existing façade has been previously painted so the application of a mural on top of the masonry with gel will not damage it. As long as the façade is properly prepped by power washing and cracks filled ahead of time, I have no reservations at all.

Regards,

Thomas F. Holton
