To Alderwoman Coggs and the city planning commission,

I am writing to express opposition to the proposed data center at 60th and Capitol. I believe that this type of development would be destructive to the community and city as a whole. The light and noise pollution it would generate is harmful to nearby residents and would result in people leaving the community, driving down standard of living, and creating a inimical environment for those who have no choice but to stay in the area. Especially in the community of Sherman Park, which has historically been a community of BIPOC families and being disadvantaged by development and city olanning, it's incumbent on the city to take into account the impact on the area. I do not see any benefit outweighing these probable harms to the community, and so I ask you to oppose the plan, as well as any future plans for such developments in our city. Thank you for your time.

Becca Rusk
