You don't often get email from ...  
To Whom IT May Concern,

1. [Learn why this is important](#)

I am disabled and count on Greenfield Pantry. For me, getting around is difficult. Being able to roll over to the store at any time is great.

One time, Medicare delayed some of my supplies. I ran out of wipes in the middle of the night, but Greenfield Pantry was open. When my daughter woke up with a headache at 2 am, Greenfield Pantry was open. They are true embodiment of the term- CONVENIENCE store. They have EVERYTHING. For older residents in the neighborhood or disabled residents (like myself). This 2 hour store is necessary.

As a teacher, I can not come in person to give my testimony.

I SUPPORT Greenfield Pantry.

This convenience store is a life saver for our community. During the below zero freezing days this past winter, The Greenfield Pantry was open.

All of the neighbors were able to get food and supplies when the news reported that we needed to stay in our homes for safety.

I live at \_\_\_\_\_ and UNFORTUNATELY ALL of the criminal activity in our area originates next to my house.

I have installed cameras, called the police and reported ALL of the loiterers and trespassers.

The neighbor to the South refuses to put up a fence and so the drug dealing continues.

MY POINT IS that the Greenfield Pantry is a benefit to the community NOT a detriment. WE NEED THEM!

Thank you for your time,

- ..
