Subject: Proposed AI Data Center Milwaukee

Some people who received this message don't often get email from sandradmendez@gmail.com. [Learn why this is important](#)

To whom it may concern,

I am a resident of Milwaukee County and Data Centers are not what we want. They are destroying the environment, our communities, and poisoning our people and land. It's bad enough we have police officers stalking people through the mass surveillance Flock cameras. This is wrong and to put this in the middle of a brown and black community is furthering our history in Milwaukee of destroying communities of color. No, do not do this to our beautiful city. Milwaukee used to be about loving our lakes and preservation of land and water and now it's all going downhill. No no no NO!! I am a veteran and I do not want my sacrifice of my youth and body to die drinking poison and living near poison. This is not okay.

Sandra Mendez
