Dear Chair and Commissioners:

Re: construction work at 2710 E. Bellevue Place in Milwaukee, WI (File #201076)

I live next door to 2710 E. Bellevue Place at 2608 N. Summit Avenue. The construction work is having an adverse effect on my historic property, both for neighborhood character and for actual damage. I was also not notified of the extent of the demolition and the proximity of the use of a jackhammer and large bulldozer breaking up, respectively, a sidewalk and concrete driveway prior to the beginning of the work. If I had known, I would have been able to modify the timing of my own interior renovation work, avoid repairs a second time, and encourage the Travis family to work with the Historic Preservation Commission to achieve better results for their own project.

I oppose the granting of a retroactive Certificate of Appropriateness.

Respectfully submitted,  
Ellen Blank
