

We, the undersigned residents of the neighborhood surrounding the Red Dot, are fed up with the vandalism and loud, boorish and unruly behavior of the late night patrons of this establishment. We have no issues with the customers who go there to dine and who behave decently.

Our efforts to persuade the owner of the Red Dot to control the behavior of his "after 10PM" patrons have fallen on deaf ears. He has promised to make changes, but has failed to do so until after Tuesday, April 24th (the day of the License Committee hearing). Since then, we have enjoyed blissfully quiet, peaceful, uneventful evenings, just like they were before the Red Dot opened. This clearly demonstrates that the owner could have controlled this situation at any time. He simply chose not to.

To ensure this regained peace continues, we respectfully request that the Common Council upholds the sound and moral decisions made by the Licensing Committee: The "Beer Garden" should be closed permanently and restaurant hours of operation should be limited to 10PM on week days and 12AM on Friday and Saturday. These are limitations that are clearly in keeping with a small residential neighborhood, one that is already saturated with such establishments.

We also ask that you deny the owner's application for a renewal of his Class B Tavern License, as it seems clear that alcohol related problems have increased in our neighborhood since the Red Dot has opened, and the owner has shown no responsibility. Thank you for your time and interest.
