Re: Adoption of resolutions allocating Community Development Block Grant and HOME reprogramming Funds

On Tuesday May 8, 2006, the Common Council will meet and consider, among other items, files allocating Community Development Block Grant (#070086-\$917,393) and HOME (#070087-\$1,832,079) reprogramming funds. The resolutions contain the recommendations of the Community and Economic Development from its meeting of May 1, 2007 (see attachments).

If any Common Council member wishes to offer an amendment to the recommendations contained in these files, please contact Barry Zalben prior to the May 8, Common Council meeting, so amendments may be prepared in a timely manner. All amendments must be "balanced amendments", meaning, if an additional amount is requested for a community group or government agency, an equal amount must be taken from another group or agency.
