

Cecelia Gore
Executive Director

Sincerely,

We are proud to join together with local businesses, non-profit organizations, and government agencies to move this vision toward reality. We feel that the success of this effort to date has shown what a remarkable place Milwaukee is. We encourage you to support this project and the continued strengthening of the neighborhoods surrounding Miller Park.

The Brewers Community Foundation has invested in this project because of the value it brings to the Milwaukee community. In addition, Craig Counsel of the Milwaukee Brewers has personally invested in the project. His children participate in the Urban Ecology Center programs at their Riverside Park branch, and he, like many of us at the Brewers organization, are excited to see this vital programming offered to children who live in the neighborhoods surrounding Miller Park.

The bridges and new segment of the Hank Aaron State Trail will serve as a convenient route for fans to either bike or walk to games at Miller Park, while the land will be used by Urban Ecology Center as an outdoor learning laboratory, providing educational programming and environmental enhancements to the community surrounding the stadium.

I am writing to express support on behalf of the Brewers' Community Foundation for the Airline Yards project in the Menomonee Valley. We believe that the park and bridges that are included in this project will serve as a beneficial resource for the Menomonee Valley and surrounding community and showcase the best of Milwaukee to millions of annual visitors to Miller Park.

Dear Public Works Committee Members,

City of Milwaukee Public Works Committee
Ald. Robert Bauman, Chair
200 East Wells Street
Milwaukee, WI 53202
