June 7, 2017

To the Members on the Committee on Community and Economic Development,

I am writing on behalf of the Milwaukee Area Labor Council in support of the proposed ordinance relating to the use of steel and iron produced in the United States in city-financed construction projects (item 170083). This measure will help create good jobs and support American workers. We thank Alderman Zielinski for bringing this issue forward, and we hope the measure will receive full support.

Pam Fendt, president  
Milwaukee Area Labor Council
