Previous Council File No.

Project/Program Title: Implementing Overdose Prevention Strategies at the Local Level (IOPSSL)

Grantor Agency: National Association of County and City Health Officials (NACCHO)

Grant Application Date: October 23, 2019

Anticipated Award Date: November 8, 2019

Please provide the following information:

1. Description of Grant Project/Program (Include Target Locations and Populations):

The Milwaukee Overdose Response Initiative (MORI) will take a community-wide approach towards addressing the opioid epidemic by connecting individuals who have experienced a non-fatal overdose with community resources. MORI's goals are to decrease Overdose fatalities, increase access to evidence-based treatment, and decrease emergency department usage. The partnership is led by the Milwaukee Health Department (MHD) and includes the Milwaukee Fire Department (MFD) Mobile Integrated Health (MIH) Program, Medical College of Wisconsin (MCW) and Milwaukee County Behavioral Health (BHD). MORI will provide immediate follow up to all individuals in Milwaukee County who have overdosed with a team of clinicians, counselors, peer support specialists, and MFD Community Paramedics. The team will link overdose victims with appropriate education, available treatment services, and ensure victims and families are supported with the goal of connecting all patients to long-term recovery. A secondary goal of this project is to identify individuals in Milwaukee County who have engaged with the Emergency Medical System (EMS) as a result of an overdose. MORI is a functioning overdose response partnership and with a comprehensive overdose response plan. The outcomes of expanding and sustaining the MORI project include comprehensive support for overdose victims and their families as well as create a deeper understanding of the opioid epidemic in Milwaukee County through data, surveillance and analytics.

2. Relationship to City-wide Strategic Goals and Departmental Objectives:

Contributes to the Mayor goal of providing safe and healthy neighborhoods through the provision of effective emergency response services.

3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):

Failure to accept these funds would impact the City of Milwaukee's ability to expand the Milwaukee Overdose Response Initiative (MORI).

4. Results Measurement/Progress Report (Applies only to Programs):

Decrease Overdose fatalities, increase access to evidence-based treatment, and decrease emergency department usage. MORI will attempt to provide linkage to treatment and recovery services to 100% of all overdose survivors engaged by the MORI team.

5. Grant Period, Timetable and Program Phase-out Plan:

November 8, 2019 – July 31, 2021

6. Provide a List of Subgrantees:

Fire Department
Staff One
Community Medical Services
WisHope
