CITY ATTORNEY
CITY CLERK

Dear City Clerk:

On Friday May14, 2004, the basement of my home located at 2019 W Villard Avenue, was submerged in water. It was told to me that the waters came from my sewer drain backing up in the basement. The water started to enter the basement about 6pm and rose 2 to 3 feet, which destroyed a lot of personal items stored in my basement. The clean up was very extensive, having to walk over black and brown slime and black sludge all over my basement floor. Also, trying not to inhale the foul sewer odor that consumed everything in the basement.

I am very frustrated because this is the second flood that has damaged my home. The city was supposed to have solved the flooding problem when the Lincoln Creek was restructured to prevent flooding. However, this did not seem to work.

If this is a problem of the City Sewer District, I feel I need to be compensated in some way for my loss. I lost clothing, appliances, art supplies, books and other irreplaceable items. I work a full time job and trying to finish my bachelor's degree in Accounting. I make enough money to pay my bills and provide for my family. I don't have enough money to continue to replace my belongings by disaster.

Thank you for your consideration and urgency of this matter.
