To: Grant F. Langley, City Attorney & Kari Gipson, Investigator Adjuster

A hearing is requested in accordance with the denied (Feb 22,2016) claim from Jan. 22, 2016.

Original claim details:

January 22, 2016 at approximately 8:45 a.m. on garage located in alley
City vehicle #32301 (If not current, please contact Brian Field 414-286-5561)

"My wife and I do not have much trash weekly, normally only one or two bags worth. Because of this, I hadn't always placed the cart away from the garage closer to the alley for pickup. I have since changed that practice after this incident. Though I acknowledge the cart was close to the garage, I assumed the garbage would just not be collected for the week as was mentioned in the pamphlet when the mechanical arm devices were introduced. Instead of just not collecting the trash, the device was used to pick up the garbage cart and came into contact with my garage. The damage includes siding and trim pieces to the garage, off to the left side of the garage door. The garage door itself was not damaged.

I contacted the sanitation department and Brian Field was sent to inspect the damage and provide contact information/instructions for what to do next."

Denial from City of Milwaukee (February 22, 2016):

"The damage to your garage is not the result of any negligence of the City of Milwaukee and therefore the City is not legally liable for your damage. Accordingly, we are denying your claim."
