Previous Council File No. _____

Project/Program Title: Lead In Water Testing & Remediation (WIIN)Grantor Agency: DHSGrant Application Date: 11/12/2022Anticipated Award Date: 10/1/2023

1. Description of Grant Project/Program (Include Target Locations and Populations):
The Wisconsin Department of Health Services (DHS) receives funding from the Environmental Protection Agency (EPA) via a Water Infrastructure Improvements for the Nation (WIIN) grant to fund water outlet testing in licensed group childcare centers and Head Start facilities. Currently, the City of Milwaukee has 521 of these childcare facilities, 158 of which are considered priority childcare facilities by DHS. Priority facilities include all Early Head Start facilities and any Head Start facility serving children under the age of 3. Confirmatory water testing will result in water fixture replacement.
2. Relationship to City-Wide Strategic Goals and Departmental Objectives:
City wide goals and department objectives are accomplished via water testing for lead at water outlets within all priority licensed child care facilities within the City of Milwaukee. Childcare facility water testing will also occur concurrently with city goal of providing lead abatement to qualifying child daycares and the ability for childcare facilities to apply for a voluntary lead safe registry post abatement.
3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):
No impact to other Departmental operations. Grant funds will be used to provide water testing to qualified licensed child care facilities, refer as needed to State-arranged and paid contractors for remediation, and to pilot a lead safe registry within these facilities.
4. Results Measurement/Progress Report (Applies only to Programs):
Progress reporting will occur monthly and include enrollment levels, facility water testing results, and plumbing fixture replacements
5. Grant Period, Timetable and Program Phase-Out Plan:
Work done under this grant will not be extended beyond the grant period of 10/1/2023 through 09/30/2024, unless funding is extended from the State of Wisconsin based on work yet to be completed. This project and funding is meant to end when the work is accomplished.
6. Provide a list of Subgrantees:
N/A
7. If Possible, complete Grant Budget Form and attach to back.
