To whom this may concern,

This letter is in regard to the water main break that occurred on Hawley Rd, on December 28th, 2019 at approximately 10:00am. I am a resident of the Hawley Terrace apartments, and I was affected greatly by the water main break. My 2012 Mercedes Benz GLK 350 was one of many vehicles parked in our parking lot on that day. Due to the quickly rising waters, I was not able to get my vehicle out of the lot. I contacted my insurance company and my AllState claim adjuster Jim Sullivan came to the apartment complex on December 31st, 2019 to do an inspection of the vehicle. Due to the extensive amount of electrical damage from the vehicle sitting in water for hours, it was deemed a total loss on January 8th, 2020. I am seeking compensation in the amount of 17, 166.10 which is the value of the vehicle before the deductible. This incident has been a hindrance and has set me back greatly. This is a great deal of negligence on the city's behalf, due to the sewer drain in our parking lot, as well as the sewer drains around the neighborhood not being functional during this horrific event. I hope that this will get resolved quickly, efficiently and fairly.

The attached paperwork are my insurance documents showing that the vehicle has been deemed a total loss, the registration for the vehicle, as well as pictures of the vehicle on the day of the incident.

Dear Residents:

The flooding of the parking lot on December 28, 2019, was due to a city water main break. We feel badly about any damage that occurred to your vehicle.

You should contact your automobile insurance agent immediately so that your loss is quickly taken care of. Insurance regulations prohibit our coverage extending to your property.

The City of Milwaukee Water Department also advises people to file a claim with the City. To receive more information on filing a claim, please contact the Water Department at (414) 286-2928, or visit the City of Milwaukee's website.

Yours truly,

VALUATION METHODOLOGY

How was the valuation determined?

CLAIM INSPECTION

ALLSTATE PROPERTY & CASUALTY has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- Recency of information

ALLSTATE PROPERTY & CASUALTY uses condition inspection guidelines to determine the condition of key components of the loss vehicle prior to the loss. The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Private Owner condition. These dollar adjustments are based upon interviews with dealerships across the United States.

NHTSA VEHICLE RECALL

The National Highway Traffic Safety Administration has issued 3 safety related recall notices that may apply to the above valued vehicle.

NHTSA Campaign ID : 12V557000

Mfg's Report Date : DEC 03, 2012

Component : FUEL SYSTEM, GASOLINE

Potential Number Of Units Affected : 5,800

Summary : Mercedes-Benz is recalling certain model year 2011-2012 S400, S550, S550 4Matic, S63 AMG, C300, C300 4Matic, E350, GLK350, GLK350 4Matic, CL550 4Matic, and CL63 AMG vehicles manufactured from April 18, 2011, through July 12, 2011. Due to an irregularity stemming from the molding process of the fuel filter flange, the fuel filter flange may crack when operated in high temperatures.

Consequence : If the fuel filter flange cracks, it will leak fuel which may lead to a fire if an external ignition source is present.

Remedy : Mercedes-Benz will notify owners, and dealers will replace the fuel filter, free of charge. The recall campaign is expected to begin in January 2013. Owners may contact Mercedes-Benz at 1-800-367-6372.

Notes : Owners may also contact the National Highway Traffic Safety Administration's Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153), or go to www.safercar.gov.

NHTSA Campaign ID : 17V017000

Mfg's Report Date : January 10, 2017
