Re: FN 171864 – 6000 S. 6<sup>th</sup> Street

Dear City Plan Commission:

Greg Schaal, is requesting that the north portion of the site is rezoned to Industrial Light (IL1). I am opposed to this change in zoning. There have been times that 3 or 4 semi trucks are parked along 6<sup>th</sup> street making it almost impassable. At times there are 6 to 10 or more vehicles backed up waiting for trucks entering and leaving the General Mills terminal. I don't believe allowing additional commercial traffic on 6th street is a good idea. Also there are children and families from the trailer park on 6<sup>th</sup> and College that walk and play in the area. I believe the zoning should remain residential. Once again I am opposed to changing the zoning of this parcel.

Sincerely,

Bruce Krogstad
