**Subject:** No Data Centers

Some people who received this message don't often get email from [alexjaded@gmail.com](mailto:alexjaded@gmail.com). [Learn why this is important](#)

Hello,

The esteemed City of Milwaukee is a beautiful and diverse community. Data centers cannot contribute positively to the City of Milwaukee in any way.

Data Centers are associated with cancer, air pollution, water pollution, and permanent decay of local climate stability. The proposal of anything else capable of these impacts would be addressed as an effort of terrorism. As every entity capable of causing such harm *should* be.

The beautiful City of Milwaukee is better than self sabotage and better than moves that are the equivalent to City-wide kamikaze runs. If any leader in the City wishes to continue to be considered worthy of leadership, they will put every last drop of their tears, sweat, and blood on the line to prevent the construction of Data Centers within their city.

May the great City of Milwaukee not be destroyed. May the leaders be competent. May self defense be unnecessary.

Thank you,
