Project/Program Title: 2023 Gunshot Location Technology Program Grant

Grantor Agency: Wisconsin Department of Justice

Grant Application Date: June 2022

Anticipated Award Date: July 2022

1. Description of Grant Project/Program (Include Target Locations and Populations):

This grant will support continued use of gunshot detection and location technology and partially fund the 2023 annual cost of the City of Milwaukee's current gunshot detection system, ShotSpotter. Gunshot detection and location technology, such as ShotSpotter, detects audible outdoor gunfire within the city's coverage area through use of acoustic sensors that pinpoint the location of shots fired. It provides real-time data to enable rapid response and deployment of law enforcement resources.

2. Relationship to City-Wide Strategic Goals and Departmental Objectives:

Gunshot detection and location technology provides a tool to track and respond to gunfire within the coverage area. The City's current gunshot detection and location technology provides 12 miles of coverage. The current system registers 80% of gunfire and pinpoints the location within 25 meters of the gunfire incident. The rapid deployment and response of MPD officers to gunfire aids investigation and evidence recovery that can lead to improved prosecutorial outcomes with the overall goal to increase safety and quality of life for all residents.

3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):

The total grant award of \$175,000 with a grantor funded amount of \$175,000 (100%) and a local match of \$0 will partially fund the 2023 annual cost of gunshot detection and location technology.

4. Results Measurement/Progress Report (Applies only to Programs):

Progress and fiscal reporting will be submitted in the Wisconsin Department of Justice E-grants system as required.

5. Grant Period, Timetable and Program Phase-Out Plan:

August 1, 2022 – June 30, 2023

6. Provide a list of Subgrantees:

N/A

7. If Possible, complete Grant Budget Form and attach to back.
