5. **DESCRIPTION OF PROJECT:**

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

Replacement of an existing air handling unit (AHU) located in the basement. Addition of split system cooling to the new AHU that includes two (2) new grade mounted residential style air conditioners (condensing units) at exterior of building. New units will be located in a recessed area on the north side of the building next to an existing condensing unit of similar size. Physical size of new units are approximately 29" high and 31" square. Both the new and existing condensing units are screened from street by existing landscaping (hedge row along Prospect Ave). The new AHU located in the basement will connect to an existing outside air duct so no new exterior wall penetrations will be made. See attached plan view (sent via email to Carlen Hatala).

6. **SIGNATURE OF APPLICANT:**
