To Whom It May Concern my name

is Candace Washington on June 21, 2016:

I was driving (with my son, and his father in the car) down Custer coming around to Hopkins behind one of the city trucks near Aldi's when notice something fell off the back of the truck I tried to avoid hitting but I still manage to hit it anyway so I pulled over into a gas station to make a phone call to my son's uncle who's a mechanic to tell him what had happened and he ask me was the car still drivable and if so try to get to the shop so he could look at it I told him I would try and see but as I started driving I could hear something dragging underneath the car so I pulled over again and seen my front bumper was hanging and a big nail was hanging from my car I removed it and I continue to head to the shop but when I got there and he was working on a car so he told me to come back tomorrow (06/21/16) so I went back home I never notice my car was over heating until the next day when I was on my way back to the shop the next day so I turned around and started to he home but the car got to hot so I pulled over to go find some water I pull a little change in the parking meter the little that I had and I went looking for water and when I returned I had a ticket for \$22 all I am asking is for my car to be repaired..... I Am asking for \$2000 for Bumper I'll get prices, Radiator Replace (for labor and new radiator is \$ 440) Moe's Automotive, Ticket (\$28), and the tow to get my car to the shop....

Sincerely, Candace Washington
