Charter School Review Committee
City of Milwaukee
200 E. Wells Street
Milwaukee, WI 53202

Dear Charter School Review Committee:

I am writing to ask that you grant a contract renewal for another five years to the DLHA students, staff, and families. I am the teacher representative on the Board of Directors for DLHA. I am the bridge between the board and staff to ensure effective communication between the two. The board values hearing from me and it has been evident throughout these trying past 18 months or so. I have brought the needs of staff to the board and have been heard and responded to. With the help of the board we have navigated the turbulent waters of teaching both virtually and in person with all of the resources we needed to be as effective as possible. I have helped implement many software products including Google Workspace, LANSchool, Rosetta Stone, PebbleGo, Renaissance Place, Follett Destiny, World Book jut to name a few. These products have helped us stay connected when virtual and continue learning. It's also exciting to be back in person and to have the library open and circulating books while of course maintain proper safety protocols. I have served as Library Media Specialist at DLHA for 16+ years and with your approval, look forward to many more years serving our IB community.

Kind regards,

Wrye D. Oliver
Library Media Specialist
Teacher Representative
DLHA Board of Directors
