We are contracted by Social Development Commission / Weatherization program with Energy Assistance program to install a 100,000 BTU 95% Single Stage High Eff. Furnace. This will require 2 - 3 Inch PVC pipes to bent to the outside of the house. We plan to have the PVC coming out the rear or back side of the house. Please see drawing. They have alot of pipe obstructions in the house so we will have to see where we can come out. But you will not be able to see the PVC pipe from the front or the side of the house. It will be well hidden.
