Other (explain):

PLEASE NOTE: YOUR APPLICATION CANNOT BE PROCESSED UNLESS BOTH PAGES OF THIS FORM ARE PROPERLY COMPLETED.

Description of Project

5a

An attached deck will be added to the house in the backyard. There will be no structural changes made to the home. The existing windows and doorways will all remain as is. The deck will be low to the ground so no architectural features will be covered or changed.

5b

We propose to install an 11' X 24' treated deck in the backyard at 101 W Vine Street. The deck will have a historic natural look. No synthetic material will be used in the construction of the new deck. The deck will be attached to the house and will be located in the backyard and after landscaping will only be partially visible from the street. No historic changes will be made to the house as there will not be a patio door added. The deck is designed for the added enjoyment of the homeowner's backyard and will not diminish the historic value of the home or the Brewer's Hill Neighborhood. All construction techniques will create an end result that will meet or surpass all local building codes.

Martha Marie McBee
