BLOCK 3 DEVELOPMENT STANDARDS

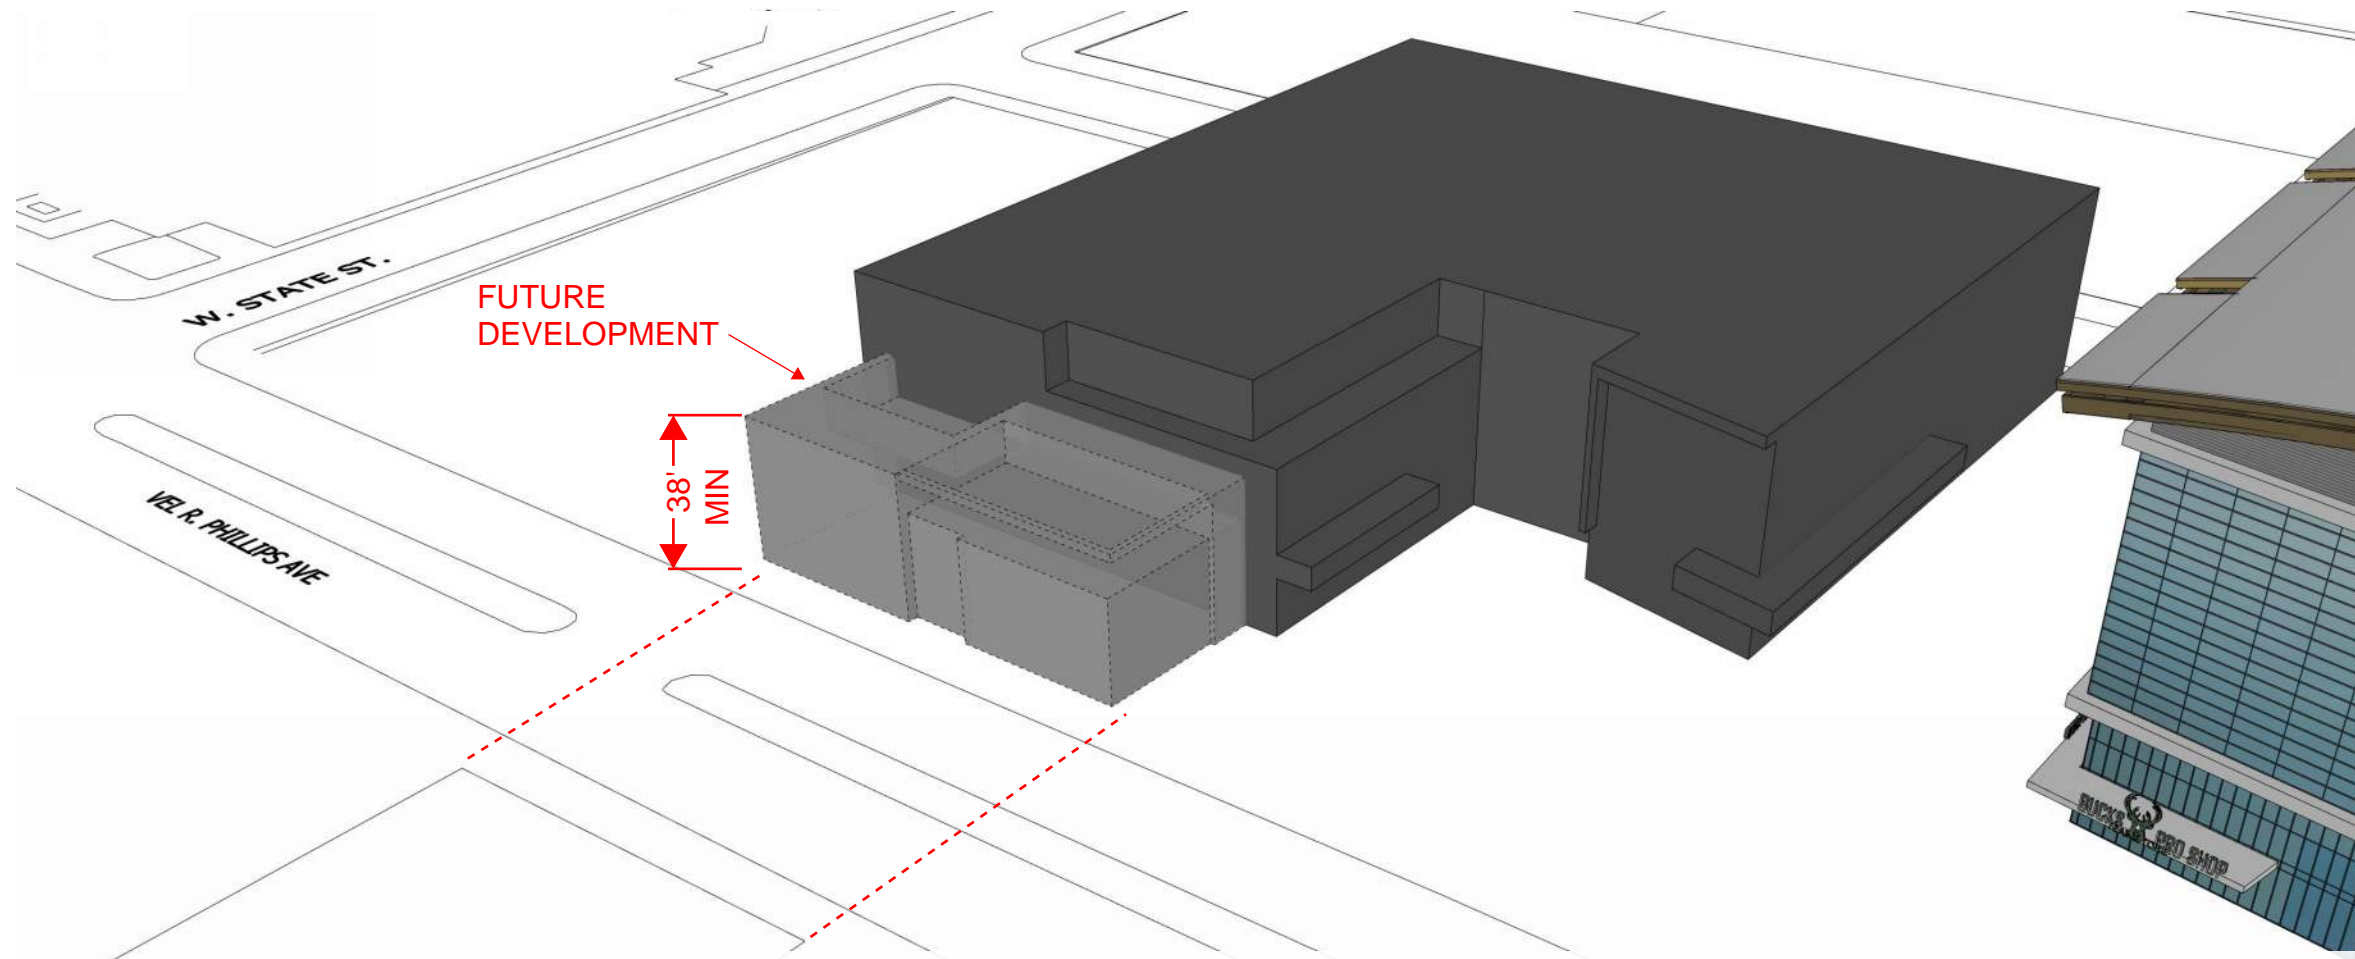

Building Height (Lot 2 OF CSM DCD #3354)

MINIMUM HEIGHT
 2 STORIES (NOT TO BE LESS THAN 38' HEIGHT, MEASURED TO THE TOP OF THE PARAPET OR ROOF ELEMENT, IF IT SUBSTANTIALLY ENCLOSES THE SPACE AND CREATES A PRESENCE ALONG THE EAST EDGE OF THE BUILDING)

MAXIMUM HEIGHT
 20 STORIES

Building Height (Lot 2 OF CSM DCD #3354)

Proposed GPD language

The building will be a minimum of 4 stories in height and up to a maximum of 20 stories. **Special consideration will be granted for building that is directly west of the historic Turner Hall. Minimum 2 stories (38' in height allowed) - Rooftop Patio can be included in total building height, if it substantially encloses the space and creates a presence along the east edge of the building.**

Proposed GPD language

Building heights are regulated to create streets in character with the Districts described in the Park East Master Plan. Building height ranges are indicated on each block in the Block Development Standards on the following drawings: A110, A120, A130, A140, A150, A160, A170, A180. Building heights are identified by the number of stories above grade and given a minimum and maximum range. The ground floor shall not be less than 12 feet from finished floor to finished ceiling but has no maximum height limit. Above the ground floor, a story is defined as a habitable level no more than 14 feet in height from finished floor to finished ceiling. When an upper story exceeds 14' in height, the additional height will count as an additional story. **Exceptions block by block may apply, such as, Block 3 which will allow a special consideration to be granted for building that is directly west of the historic Turner Hall. Minimum 2 stories (38' in height allowed) - Rooftop Patio can be included in total building height, if it substantially encloses the space and creates a presence along the east edge of the building.**
