whos on third, on old world 3rd st.

add projecting
 letters past the face

 add yellow border

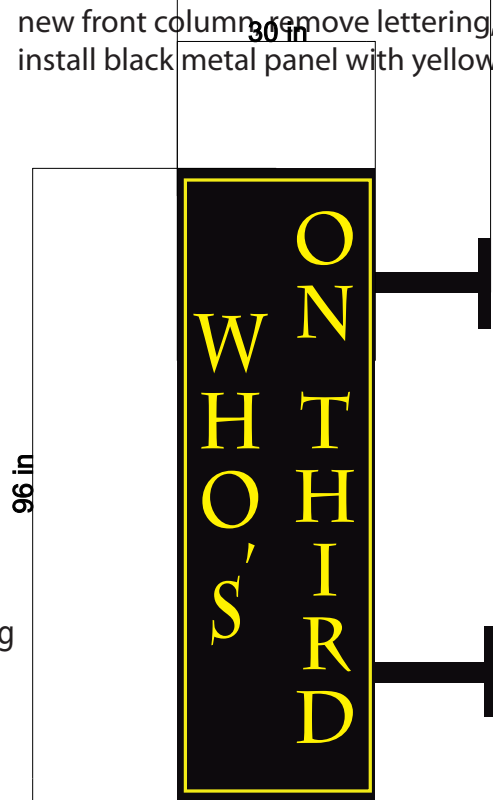

new front column, remove lettering,
 install black metal panel with yellow inside

change thickness on the sign
 currently at 11"
 so change to 6" thick

-Based on engineering this is
 the minimum it should be, for
 strength on the wall and holding
 power.

routed out letters, yellow tranlucent lexan projection letters
 solid black metal background
 yellow painted border 3/4" thick
