Hello,

My name is David Kaye and I am a lifelong resident of Milwaukee County. I want to put on the record my strenuous objection to the proposed data center in midtown. The technology behind them does not exist without such a high level of electricity and water, that it puts at risk the entire community. Power will become scarce, water will become scarce, and there will be no going back. Everyone will know who approved that, and I ask that you not be the ones to do that. Do better for your community.

Some day, if the technology is improved, perhaps it could be considered then but currently it would border on criminal negligence.

Yours,

David Kaye
