Subject: Juvenile correctional

Some people who received this message don't often get email from rallen2336@gmail.com. [Learn why this is important](#)

Why would the city want to put this correctional in a residential area that is continuing to work at keeping crime out of they area. Why would you want to lower the property values in a middle class neighborhood

It appears to one, that the city wants to continue to lower certain classes of people's lives. Business development in this area is little to none and adding this facility will NOT draw any development to this area. What the city should be spending its time doing, is trying to figure out ways to draw more business to the area, that would increase the property values of people that are trying to improve their quality of life.
