Some people who received this message don't often get email from angelanicole808@gmail.com. [Learn why this is important](#)

To whom it may concern:

I'm writing in opposition to a data center being constructed in midtown Milwaukee - or anywhere in Milwaukee County for that matter. I've worked in the technology industry long enough to know that organizations have not been able to work fast enough to lobby for regulations in this area and it's having detrimental effects on human health and our environment - not to mention the financial implication for those already struggling with high energy bills.

Building this in Milwaukee would only hurt the community we are trying to rebuild after a terrible history of redlining and segregation amongst other issues.

Please do not allow a building permit for a data center to be built. Statewide there should be a moratorium on these types of facilities

Here's some information for consideration in your decision making process.
