Some people who received this message don't often get email from [bekamarie91@gmail.com](mailto:bekamarie91@gmail.com). [Learn why this is important](#)

Good afternoon.

I'm a Milwaukee resident who lives a few minutes south of the property in question, and who takes her children to the Children's Midtown clinic, as well as playgrounds within the neighborhood.

I strongly urge you to host public meetings within the community that lives nearest the unused Walmart building, and get their ideas and consent before making any decisions on how to move forward. If you want to gain any public trust in local government and processes, you would be wise to make the entire thing more accessible than hosting 'public meetings' at the building downtown, during 1:30 in the afternoon.

As a Milwaukee resident, I am resistant to any more data centers being hosted (much less built) in this city or state. We need to focus our resources on offering our communities the opportunities for longevity, clean air, and clean water. We do not need data centers for living a good life, and improving the lives of those harmed and sidelined within our city.

Thank you for your time.

Rebekah Hill
