Subject: Development 2560 N Stowell Ave

Good morning,

Shoreview Pediatrics is a busy pediatric office located in the Lakeview Commons building 2524 E Webster Ave Milwaukee, WI 53211. We are delighted to see the neighborhood grow and the recent business developments in our community. Downer Ave has all the necessities one needs for daily living, as well as entertainment and health care in close proximity.

Our main concern is parking and the allocation of sufficient parking spaces for our patients and families. Handicap Accessibility and parking is imperative for our clinic. There were 4 handicap parking spots on that parcel of land that were suddenly removed in late October. Many of our insurance contracts include that we are handicap accessible.

What steps are being taken to address this issue? How can we ensure that handicap parking will be addressed for our clinic?

With great respect,

Tiffanie Meeks
