CITY PLAN COMMISSION --

Resolution approving exterior building modifications to an existing multi-tenant building located at 1010 West Layton Avenue, on the north side of West Layton Avenue, east of South 13th Street, relative to a Development Incentive Zone Overlay known as Bouraxis Layton, in the 13th Aldermanic District.

- Analysis -

This resolution approves exterior building modifications to an existing multi-tenant commercial building located at 1010 West Layton Avenue, on the north side of West Layton Avenue, east of South 13th Street.

Whereas, The City of Milwaukee has established a permitted use list and design standards for developments and site work on properties located within the Bouraxis Layton (aka 938 W. Layton Avenue) Development Incentive Zone (DIZ) Overlay that was established by Section 295-1007.0007 of the former Milwaukee Code, and the subject site at 1010 West Layton Avenue is located within the DIZ Overlay, on the north side of West Layton Avenue and east of South 13th Street; and

Whereas, In June 2005, the City Plan Commission approved a site plan and building elevations for the construction of the subject 22,348 square foot multi-tenant commercial building as it relates to the DIZ Overlay; and

Whereas, Baraka Roastery Inc. will be occupying 2,932 square feet of tenant space within the building as a coffee shop, which is a permitted use in the DIZ Overlay; and

Whereas, The DIZ Overlay standards require the building to have a storefront window system with vision glass at the first level, and a minimum of 50 percent of the glazing within the tenant spaces along the primary frontage must be transparent, vision glass; and

Whereas, Modifications are proposed to the south elevation of the building fronting West Layton Avenue to accommodate the coffee shop use, including replacing individual windows with awnings and a single door with a full storefront window system and double glass door with a metal canopy above the entire bay; and

Whereas, Baraka Roastery Inc. is proposing to increase the amount of glazing within the lineal frontage of the tenant space from 20.4% to 37.5%, and 100% of the glass within the tenant space will be transparent, vision glass, which exceeds the DIZ Overlay standard that requires a minimum of 50% of the glass to be transparent, vision glass; and therefore, be it

Resolved, By the City Plan Commission of Milwaukee that the proposed building modifications at 1010 West Layton Avenue as they relate to the Bouraxis Layton Development Incentive Zone Overlay are hereby approved; and, be it

Further Resolved, That the owner, or their assignees, are responsible for maintaining site improvements in accordance with approved plans; and, be it

Further Resolved, That the Department of City Development is authorized to review and approve minor modifications, such as building and site signage of said building deemed necessary to complete the development and which are consistent with the approved design standards and the Milwaukee Code.
