To: Finance & Personnel Committee
From: Kathleen Brengosz, Fiscal Planning Specialist, x3926
Date: October 23, 2017
Subject: Deficient Bridge Locations

The following information is in response to your question regarding the locations of bridges in the City which have a sufficiency rating of 50 or lower.

Bridges are rated annually. As of December, 2016, there were 6 bridges in the City's inventory with a sufficiency rating lower than 50. They are shown in the table below. The Department of Public Works bridge inventory includes only bridges which are the City's responsibility to repair and maintain. There may be additional bridges within the City limits that are classified as deficient, however, they are not included in this listing because they are owned and maintained by other jurisdictions.

Street	Location	Over
Calumet	9200 W	Little Menomonie River
51 Street	5100 N	Lincoln Creek
Chase Avenue	3300 S	UP Railroad
70 th Street	700 S	CP Railroad
