Hello,

I am a city of Milwaukee resident and I strongly oppose any data center being zoned for or built at Midtown (60th and Capitol).

All the science and personal testimony of residents around existing data centers show they have nothing but negative impacts on the community, including but not limited to:

- increased area temperatures
- increased illnesses such as cancer
- decrease in drinking water quality and pressure
- sound pollution
- air pollution
- water pollution
- increased electrical bills for residents

For all these reasons and more I oppose any data centers being built in Milwaukee. Please do the right thing and protect our neighbors.

Thank you,
Laura
