City of Milwaukee Common Council  
Public Works Committee  
200 E. Wells Street, Room 205  
Milwaukee, WI 53202

Dear City of Milwaukee Public Works Committee,

We are writing to show our support for Common Council file 191604, the City of Milwaukee Environmental Collaboration Office's resolution to authorize the construction of a solar system on a city-owned landfill at 1600 E. College Ave through WEPCO's Solar Now Pilot program.

Students for an Environmentally Active Campus (SEAC) is a student group at Marquette University. Our mission is to inspire environmental efficacy into the students and faculty of Marquette University by promoting sustainable practices from waste reduction to energy conservation and encouraging respect for our natural world.

SEAC strives to do all it can to support efforts that combat climate change. As a collective of environmentally conscious students trying to do our part to protect the planet, we are voicing our support for Common Council file 191604 because we recognize the profound impact the Public Works Committee can make by wielding its decision-making power in favor of this resolution.

We want to see the City of Milwaukee achieve its 25% by 2025 renewable energy goal. We believe the proposed construction of a solar system on 1600 E. College Ave would allow the City to make significant strides towards this goal. The effects of climate change have and will continue to be experienced on a global scale. Therefore, it is vital that Milwaukee takes this opportunity to demonstrate its commitment to climate action to its residents, the nation, and to the world.

We appreciate your time and consideration of our support for this project.

Sincerely,

Karaline Black and Laura Schmit

Co-Presidents of Students for an Environmentally Active Campus

Marquette University

## Signatures of Support for Common Council File 191604 from SEAC Marquette
