Subject: Re: Sampling of Examples of Food Truck Issues

Hello Yadira, I am attaching some examples of the issues we have faced due to the food trucks that I'd like to submit for the Tuesday licensing meeting.

Jonathan and JoCasta, I hope it's ok if I use first names. First off, thank you for all of your hard work on this issue. I know how complicated it has been and how much effort has gone in. This is a sampling of images and movies from our security cameras, but unfortunately, we put up our cameras late in the game, and while these images are telling, they do not come close to painting the full picture of how bad the issues have been. The reality is much worse than what these show.

Beth, I also copied you in case your team took any photos of the garbage they picked up during your late night efforts.

Let me know if I should forward these along to Yadira - and I wanted to confirm her contact info below.

Thank you,

Eric
