Office of the City Clerk [Claims]

Hello,

This is a letter to describe how the damage to our van came to be. There was a wind storm along with rain that went through our neighborhood about the beginning of the second week in June of 2001. That evening it was raining and became very windy. The windows start shaking on the house. After the wind died down we went to the window and saw that the top of the tree from the house across the street was in part of our front yard. We went out to see what it had fallen on. The top of the tree was on top of our van. The city had workers that came out and took the tree off our van, took pictures and gave us a sheet of paper telling us how to place our claim and what would be needed. We could not move the van it was not drivable, we end up having it towed away from our property. Body shops said that the damage exceeded the value of the vehicle.
