### 3. Century City Streetscape Enhancements

#### 7<sup>th</sup> Aldermanic District

Century City fronts some of the most visible and highly trafficked streets in the 30<sup>th</sup> Street Industrial Corridor. Most of the RACM-owned portion of the site is also the most aesthetically challenged, specifically along 27<sup>th</sup> Street and Hopkins Avenue. With the addition of Talgo, it is important that the public "face" of Century City reads as the type of world-class business destination that Talgo's corporate image projects.

The intersection of 27<sup>th</sup> and Hopkins is a primary focal point of The Corridor's Streetscaping Plan, identified in the attached map as Zone 2. The plan proposes the addition of trees and other streetscape amenities that enhance landscape of Century City.
