September 19, 2017

Ald. James Bohl, Jr.  
Chair  
Zoning, Neighborhoods and Development Committee  
Milwaukee Common Council

Dear Ald. Bohl:

This letter responds to communications file 170578, a request for information from City departments regarding the cost of maintaining City-owned properties.

The Dept. of City Development has previously supplied information about contract expenditures related to the maintenance and management of foreclosed properties. That document did not reflect the staff hours spent on these duties. DCD has 3.5 FTE staff devoted to property management; their combined salaries total just over \$165,000. Additional real estate staff participate in the inspection of properties following each in rem filing. Their salaries are not included in the total.

Sincerely,

Martha L. Brown  
Deputy Commissioner
