On Monday, August 6th, I arrived at The City of Milwaukee' Central Repair Garage where I am employed as an Auto Body Painter. I was informed that the Body Shop was broken into over the weekend and that some of my personal tools were stolen.

Attached is a copy of the police report and a list of my tools that were damaged or stolen.

I would like to be reimbursed in the amount of \$2,399.87 so I may purchase replacement tools.

Several tool carts and cabinets were ransacked and tools taken. The suspects focused on power tools. Hand tools and consumer electronic items were not taken. The suspects took power tools during the 07/29/2007 burglary. The point and manner of entry was the same as the #07-210-0111 burglary a window was broken on an overhead door.

Glass was broken but no blood evidence was found. Squad#1724 ID TECH Michelle Hoffman examined several tool carts and cabinets but did not recover any latent fingerprints. ID

TECH Hoffman took (9) photos at the scene.

The building complex is being remodeled so the alarm and video systems were not

operating at the time of the incident.

A complete and detailed Inventory of the stolen items will be provided to the police in a few days. This detective will update the loss after the inventory is received from the Fleet Operations Manager for the Municipal Garage.

On Sunday, August 5, 2007, at approximately 2:30PM, I was dispatched to 2124 W. Canal St. for a Burglary complaint. Upon my arrival, I was met by Det. John HARRINGTON, assigned to squad 9722. Det. HARRINGTON advised me of the circumstances and requested photographs of the scene and the following items processed for latent fingerprints. The items are:

*two craftsman tool boxes

Upon processing the above listed items with black magnetic powder, I was unable to obtain any latent fingerprints of comparative value.

I took 9 digital photographs of the scene. This case is assigned Identification Division latent case #07-3479.
