Alderman Bohl,

This email is a follow up to my call I made into Todd today regarding the selling of Dover street school in Bayview to a developer. I'm asking you to please vote "NO" at the committee hearing and council meeting.

This project does not have the support of the local Alderman and the support of district's alderman is vital to any approval in their district.

No one knows more about a districts needs and what will fit in with the neighborhood, than the local Alderman.

Please vote "NO" and keep public property disposition decisions in control of the local Aldermen.

Thank-you  
Dan Handle
