**Attachments:** 3312kilbourn.pdf

Hello Jim-

I'm Anne and Ned's neighbor at 3002 w kilbourn ave. and unfortunately i'm unable to attend meeting scheduled for tomorrow at 3:00 pm due to my 2nd shift working hours.

I would like to take this opportunity to express my support for Anne and Ned's decision in wanting to move forward with a high quality asphalt product for the following reasons

**feasibility**- material/labor for slate roof @ approx 50% of property value

**visibility** - house is on dead end with limited visibility to roof by public

Anne and Ned are champions in supporting all aspects of our community (Concordia) including <http://www.hcni.org/>

I'm hopeful that the correct decision is made to support a high quality asphalt roof, as i personally feel its a disservice to our community to expect anyone to spend upwards of 90K for a roof; I'm confident that a compromise/exception can be granted due in part of the items I mention above.

Sincerely,

*Brian Janis*
