

LEGISLATIVE REFERENCE BUREAU FISCAL ANALYSIS

COMMUNITY & ECONOMIC DEVELOPMENT COMMITTEE

OCTOBER 20, 2008

Item 9, File #080816

File Number 080816 is a resolution authorizing the Department of City Development to apply for, accept and fund a Wisconsin Department of Natural Resources Brownfields Site Assessment Grant for contamination assessment, removal of underground storage tanks and demolition on various brownfield properties throughout the City of Milwaukee.

Background

1. The State of Wisconsin, through the Department of Natural Resources, makes available Brownfields Site Assessment Grant funds to reimburse municipalities for contamination assessment, removal of underground storage tanks and demolition on brownfield properties in those communities.
2. The City of Milwaukee appears to be eligible for a Brownfields Site Assessment Grant for assessment and remediation of various brownfield properties throughout the city.
3. In March, 2008, the City was awarded \$107,980 in Brownfields Site Assessment Grant funding for the assessment and remediation of 4 properties. Application, acceptance and funding of this grant was authorized by Common Council File 070800, adopted October 23, 2007.

Discussion

1. This resolution authorizes the Department of City Development to apply for, accept and fund a Wisconsin Department of Natural Resources Brownfields Site Assessment Grant in the amount of \$255,000.
2. This resolution also authorizes the Commissioner of City Development to enter into the contracts and subcontracts necessary to complete the Brownfields Site Assessment Grant activities if awarded grant funds. Specific properties to be assessed and remediated through this grant project are not identified in the resolution file.
3. The grant period is approximately February 1, 2009, to June 30, 2011.

Fiscal Impact

1. The total cost of this grant project is \$455,000 -- \$255,000 (63%) grantor share and \$150,000 (37%) in-kind City share.
2. The City share for this project will come from DCD's Development Fund capital account, as well as from Community Development Block Grant funds. The amount of CDBG

funds used for the City match will depend on how many of the properties to be assessed and remediated are located in the City's Block Grant area, which is not known at this time.
