Hi Dianna,

This is concerning to hear that I have to go through all whole new complaint process through a different inspector.

In my years of dealing with these issues directly with the owner, this is how he operates. He fixes it for 1-2 months, then reverts back to this method of garbage disposal.

Can you put me in touch directly with the new commercial inspector? Seeing that this complaint is already logged in the system, please re-open the complaint and have the new inspector visit the dumpster.

I found a smooshed rat by their dumpster two weeks ago - photo below - so this is a health issue that needs to be resolved BY THE CITY in a timely matter.

I did have an order that was issued back in the beginning of July that I followed up with weekly for some time. There was no violation found with the garbage for a while and since, the order has been closed out for compliance. I did try reaching out to the business owner today based on this week's new finding. I was not able to get a hold of them and left a voicemail. Unfortunately, I am no longer the district commercial inspector for this property and recommend submitting a formal complaint through our DNS complaint line 414-286-2489, so the correct inspector is assigned and has a record with the complainant's information to work with. Please let me know if you need any more information from my end. If I hear back from the business owner, I will update you as well. Otherwise, thank you for your follow up and hope this can be resolved in a timely manner.

Good morning, Aaron,

What's the status of the dumpster at Belli's Bistro??? This is what it looks like this morning.

Has the city conducted inspections like they said would happen?

This is getting very frustrating to have to live next to, and as you can see from the photos below, animals are getting into the dumpster at night.

Please advise on next steps to resolve this. I have been more than patient and struggling to find any other restaurant in Bay View that is allowed to have this.

Good morning all,

I just would like to inform everyone that I did issue an order for garbage pick up and will be monitoring this weekly for some time to ensure the pick up schedule is being maintained. The business owner had pick ups scheduled for Mondays and added an extra pick up on Thursdays moving forward. They removed garbage from the residential receptacles and did have the dumpster picked up yesterday per our request. Somehow it was missed this last Monday and I was told will not be missed again. I attached a copy of the order if you have anymore questions, please let me know.

Hi Aaron,

Thanks for the update.

With the heat and humidity this smells really bad and attracts rodents. The commercial dumpster hasn't been picked up since last week, so they'll just pile bags on top of the already-composting restaurant waste- that STINKS!!

Are restaurants allowed to use residential trash and recycle cans for their refuse? If not, can the bins be removed by DNS to prevent this? There is no residential tenant in that building.

My first complaint on this thread started in February 2025 after years of talking with the operator on these issues. I'm a bit dumbfounded that even though the operator has been informed on the rules of regulations, this continues to be a recurring issue.

This needs to be an ongoing compliance check and not a one-and-done.

Regards,

We are following up on our orders sometime this week to see what their plan of action was. Looking at the photos the commercial dumpsters are filled properly, the residential trash cans fall under DNS. I've left a message with the inspector assigned to that area to see if they can stop by and issue orders for the residential trash as well.

Hi Aaron,

Sounds good, appreciate the insight into the process.

Hopefully the operator sticks with the plan that he provides the city. I have over three years worth of text messages between myself and the operator regarding the dumpsters and waste disposal issues, but have opted to go through the city now as (at least in my experience) the operator acknowledges the issue, apologizes, corrects the problem for a few months, then reverts back to non-compliant waste disposal- that my tenants then complain to me about...

I don't want to be a nuisance to the city and the guy that always complains, but I feel like I have given plenty of time and patience to the operator over the years. With that said, I will reach out to you or the alder if it happens again, but hopefully the situation has finally resolved!

Thanks again,

Hi

If orders are corrected by the time of inspection, traditionally we only enter an establishment for the annual routine and by complaint basis. It looks like the operator is taking the correct steps to get back into compliance, but we will verify at our reinspection for the complaint. During this year's routine we will check if the corrective action is working for the business operation.

Moving forward, we have spoken to the operator and he understands what's required for trash disposal and storage. If there are any future occurrence's, you can reach out to us or Ald. Dimitrijevic's office to discuss long term compliance if it comes to that. In the meantime, the operator has been pretty understanding when it comes to what we expect, if you are able to have a conversation with him I would recommend that route to ensure he understands where you are coming from.

Please let us know if there's anything further we can do.

Hi Aaron,

Thanks for the update, appreciate your help in resolving this.

Assuming the operator corrects the conditions in two weeks, will there be periodic check-in's to make sure they stay in compliance?

Hi

We currently have open orders to correct the conditions, during this time the operator has 2 weeks to correct. I left a message with the district inspector to see what route the operator was going to take - more frequent removals vs another dumpster for pick up. During our last visit on 6/10/25, the operator was seen scheduling a same day pick up and cleaning the surrounding area. We will continue to monitor for trash build up and follow up somewhere around the 24th to see if they came up with a solution.

Hi Aaron,

Just checking on the status of the dumpster at Belli's Bistro...trying to avoid having rats move into the area and this hasn't been fixed since last week.

Hi Aaron,

Bringing the dumpster and garbage at Belli's Bistro to your attention again. Below is a photo from today.

My tenants can't keep the windows open because of the smell, and Belli's is using the city garbage AND recycling bins for their garbage, which animals are getting into at night! Can someone please resolve this issue? It gets fixed for a few months, then consistently reverts back to this state...

Thanks,

I don't want to be a broken record, but this is how the dumpster has been since the weekend...once it starts to warm up, the garbage starts to compost and smell so much that my tenants can't even keep the windows open (as what occurred last summer).

First photo of the city garbage can full of their restaurant refuse was from yesterday, before it was picked up today by the city.

I am the owner of the neighboring property across the alley and this has been an CONSTANT issue since they have moved into the building formerly occupied by Honey Pie. Whether it's garbage, i.e. food waste that never gets picked up (and begins to compost and smell), restaurant/food waste getting put into my tenants garbage bins, and now for the past ~2 months no dumpster for food waste, just piled in the alley until someone picks it up.

This is a public health issue, as leaving garbage bags to pile up in the alley attracts rats and other critters, not to mention the alley has turned into Belli's dump.

Every time I text the owner, he promptly replies "sorry this will never happen again", but I'm tired of being the police officer of their waste. It's a public health issue and disgusting for my tenants to live next to. My taxes keep going up, and the alley keeps getting more disgusting!

Hey Marina,

We manage the apartment building at 2645 S KK and our residents are experiencing some issues with the restaurant Belli's Bistro to the North. Based on their complaints, it sounds like this is more of a bar than a restaurant. Some of the concerns are...

- Extremely loud music until 2 am and sometimes later
- Fights outside
- Customers from the restaurant are sitting on our property's front steps smoking
- You can hear the bass from the music at all hours, and it is stopping our residents from being able to sleep.

Is there anything we can do to limit these disturbances? We appreciate your support.
