October 30, 2008

Dear Milwaukee Common Council Members,

Please accept these 3,865 signatures as a representative sampling of the outpouring of concern being demonstrated throughout the city as your constituents become informed of the very real threat posed to their safety by the proposed Fire Department staffing cuts. The community has offered tremendous support for our position; further cuts will degrade our ability to safely rescue trapped fire victims and provide fire suppression and emergency medical services.

Against many odds, we have raised awareness in the community as to the rising rate of civilian fire deaths, property loss, and firefighter injuries resulting from the ongoing staffing cuts. The proposed cuts that are currently on the table for the 2009 budget present a clear and present danger to your constituents and to your loyal firefighters.

We, the membership of the Milwaukee Professional Firefighters – Local 215, stand ready to protect and serve and will continue to carry on the proud tradition of the generations of firefighters who have come before us.

The community has rallied around our concept of firefighting staffing: "It's not what they cost, it's what they save." Please acknowledge your constituents' support and keep us all safe by voting for 'no more cuts.'

Sincerely,

Bobbie Webber
President
Local 215

It's not what they **cost.**
It's what they **save.**
