Arts @ Large is launching an amazing school garden initiative to build bridges in diverse Milwaukee communities. Our pilot "Growing Great Gardens" project brings together 53rd Street School, Yeshiva School, the Morwood Neighborhood Group, the Sherman Park Neighborhood Association, community artists, families and neighbors who adopt and maintain an artistic community garden installed directly on a Milwaukee Public Schools site. Our goal is to create sustainable community gardens with colorful artistic components and outdoor classrooms where students discover scientific exploration of plants, insects, and animals, while fostering respect for the neighborhood.
