5. DESCRIPTION OF PROJECT:

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

This proposal is for two light fixtures that would replace two unoperational and undersized wall sconces that were previously hanging off the front facade of the home at 2742 W. State Street. The existing sconces were removed for electrician's access to rewire for replacement fixtures (pictures of existing fixtures attached - #1). The sconces existing at purchase were unoperational and were also undersized in proportion to the size of the property (picture of comparison of new/old sconces attached - #2). Additionally, electrical wiring to the entire home was replaced and warranted updated fixtures.

The rewiring maintains the original positioning of the existing fixtures, situated on either side of the front door opening (pictures of door opening #3, #4). The fixtures will be located approximately 5 feet from the ceiling and 6 feet from the floor (picture #5). The fixtures measure approximately 22in tall and 12in wide (picture #6).

The fixtures are from the Minka Lavery collection in Windsor Bronze and will match the hardware on the restored front doors.
