

Fiber Infrastructure Partnership between the City of Milwaukee  
and AT&T.

The City of Milwaukee (CITY) and AT&T, Inc. (AT&T) are entering into this agreement to share fiber optic infrastructure and resources to provide each agency with a more efficient and reliable communications network. The scope of this agreement shall include installation of fiber optic cable and fiber termination as designated below.

I. RESPONSIBILITIES OF PARTIES

- AT&T will remove the City 24-fiber cable on South 20<sup>th</sup> Street between I-894 and West College Avenue. AT&T will install a 72-count fiber cable in its place. AT&T will splice 24 of these fibers to the existing City fibers at each endpoint. AT&T will splice 48 of these fibers to AT&T fiber for its own use.
- AT&T will disconnect all AT&T facilities from the 72-count fiber prior to the end of the agreement. Once the term of the agreement has passed, ownership of the fiber and all responsibility for maintenance of the fiber will reside with the City.

II. TERMS OF USAGE

- All fibers allocated by one party in this agreement for use by the other party shall be used solely by that party. Any use of the fiber by other parties shall require written approval of the fibers' owner.
- The party installing fiber under provisions of section I of this agreement shall assume responsibility for the maintenance of that fiber during the term of the agreement. This includes testing, repair of faults and any critical maintenance necessary.
- This agreement shall be effective for two (2) years beginning on the date the agreement is signed by both parties.

IN WITNESS HEREOF, the undersigned have executed this Agreement as of the day, month and year first set forth below.
