Project/Program Title: 2026 Consolidated Contract -Lead DetectionGrantor Agency: State of Wisconsin Department of Health ServicesGrant Application Date: N/A ContinuationAnticipated Award Date: January 2026

1. Description of Grant Project/Program (Include Target Locations and Populations):

The Lead Detection Grant funds supportive, comprehensive and coordinated service delivery to lead-poisoned children and their families. This grant supports nursing case management, lead inspection, hazard identification and abatement technical services. 100% of the children in the City of Milwaukee with a one venous blood lead level greater than or equal to 15mcg/dL. The City of Milwaukee Health Department will make contact attempts to provide follow-up services for lead. For Nursing Case Management contact attempts, the outcomes will result in 90% of Families will accept follow-up services, 8% will be unable to make contact, 2% of families may deny the offered services. For Environmental Investigations, 100% of referred children to the City of Milwaukee Health Department will be followed-up.

2. Relationship to City-Wide Strategic Goals and Departmental Objectives:

The Lead Detection State of Wisconsin grant assures the promotion of safe and healthy homes for children in Milwaukee. The investigation of lead poisoning and medical case management assures that children that are lead poisoned are identified early and receive the interventions needed for healthy child development.

3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):

This consolidated contract funds positions and services needed to sufficiently administer the Home Environmental Health program. While some City funds are currently used to support some of these initiatives, they are considered as match funds for the grantor. These functions could not be achieved without the grant funding supplementing the City funds.

4. Results Measurement/Progress Report (Applies only to Programs):

-Monitoring of all childhood lead level results for every child in the City of Milwaukee.

-Outreach and education to families of City of Milwaukee children with capillary or venous blood lead levels $\geq 5\text{mcg/dL}$

-Comprehensive public health nursing case management for all City of Milwaukee children with a venous blood lead levels $\geq 15\text{mcg/dL}$

-Environmental lead hazard investigations for all City of Milwaukee children with a venous blood lead levels $\geq 15\text{mcg/dL}$.

Due to the pandemic the Wisconsin Department of Health Services has seen a significant drop in lead testing across the state and city. WIC offices being closed, as well as ongoing hesitancy to visit primary care providers, may continue to impact the number of children seen with elevated blood lead levels.

5. Grant Period, Timetable and Program Phase-Out Plan:

The grant period for the Consolidated Contract Lead Detection Grant is January 1, 2026 through December 31, 2026.

6. Provide a list of Subgrantees:

None
