To Whom it May Concern,

Hello, my name is Brooke Greenwald, and I currently reside in Cudahy. I am strongly against the notion of a data center being built at 5825 W. Hope Ave. I think that this date center would be highly disruptive to the community and many others also oppose the idea. It would increase noise pollution and electrical bills for those living in the area. We should be working to improve the quality of life for residents, not destroy it with unnecessary data centers. I implore you to please consider the wellbeing of the residents around the proposed site. The community will be much better off if this does not go through.

Thank you for your time,
Brooke Greenwald
