City of Milwaukee,

Say NO to the proposed data center at 60th and Capital! Do not dress up this looming ecological disaster as a "mixed-use" space by dressing it up with affordable housing, etc. Nearly every city with a data center has suffered polluted environments due to chemicals introduced into the water supply.

It is your job to listen to your constituents, and there has been endless pushback on this project! Do not move forward!

We do not want our water, land, and efforts going towards this money-making scheme. This email was composed without the use of AI.
