Hey Yadira,

I was wondering if Public Works is like licensing where correspondence can be "added to a file."

I just wanted to see if we could get the very latest email below on the record.

Let me know your thoughts!

Danielle Venus (she/they)

Hello,

I'm reaching out to you again because I was directed to your office upon calling the Special Assessments Department. We received notice of a public hearing for the improvement project on our street which allows for the opportunity of public input on proposed projects. We already sent the postcard back indicating "yes" to proceed with the project and, as you know, feel very strongly that the city needs to move forward with project approval. My husband and I are unable to attend this public hearing (May 18 at 9am) as it's during the middle of the work day. The Special Assessments Department told me to contact my alderman so they can speak on my behalf. So, that's what I am doing. I would very much appreciate representation during the hearing in favor of project approval. Do I need to do anything else at this point? Thank you again for your responses and follow-up.

Rosin Jones
3766 N. 87th Street

Good evening,

This was from the last postcard survey. This is old and the new postcard survey will override the last results.
